WASHINGTON - BIOETHANOL WOOD-BURNING STOVE

BIO-20-240

The Washington stove fireplace from ScandiFlames combines the timeless charm of a classic wood burner with the modern convenience of bioethanol. With a size of H: 112 cm x Ø: 42 cm, it fits seamlessly into any home. Its 1.5-litre bioethanol burner offers up to 6 hours of burn time and generates a heat output of 2.2 kW, perfect for warming a 25-30 square meter room while you relax, catch up on the latest news, or enjoy time with family. This manually operated fireplace requires no electricity and is completely chimney-free, making it a simple and hassle-free choice for creating a cozy and inviting atmosphere at home.
